## STEVE SULLENTRUP-HOLLOWING THE EASY WAY

Steve did a wonderful demo about hollowing with only three tools, a 5/8" bowl gouge, a 1/2" bowl gouge and a parting tool. With the wood mounted on a face plate, prepare the top surface with a hole for a chuck. Mount in the chuck and hollow the inside surface, leaving a flat at the edge for a gluing surface. The same procedure for the lower half except without the hole. Glue the two halves together and blend in the glue joint.

On December 8 Theresa Hess and my wife, Sally , did just that they brought the children together and with that they sponsored a paint day and painted 12 bags of memory ornaments and provided a lunch and just a good time for the children to get together and have a fun day and of course TERESA and Sally just reveled in the fact that the girls are so interested in the painting of the ornaments, but also Just is a good time for the children to be together. The memory ornament packages are the idea of Jake Niedling of the Smokey Mountain Woodturners. He suggested this project and I think he suggested also to the Rocky Mountain Woodturners ,his home club to do the same thing. So ,I took Jake's direction and asked the members to turn the ornament kits And turn them in
